

Case Reports

Testicular epidermoid cyst: A rare benign testicular entity
Presenting author: Sohini Anand, MD; Danbury Pathology

A Rare Presentation of Small Cell Lung Carcinoma Metastasizing to Pheochromocytoma
Presenting author: Muhammad Asad, MD; Danbury Pathology

A Rare Case of Incidental Primary Follicular Lymphoma Co-Existing With Grade Group 5 Prostatic Adenocarcinoma
Presenting author: Shubhneet Bal MD; Danbury Pathology

Rare Testicular Carcinoma; A case report
Presenting author: Tabinda Jawaid MD; Danbury Pathology

Expanding the Spectrum of Progressive Familial Intrahepatic Cholestasis: A Report of Two Cases Highlighting the Unusual Presentation, the Histopathology Features and the Importance of Molecular Analysis
Presenting author: Jingjing Jiao, MD, PhD; Yale Pathology

Syphilitic Epididymo-Orchitis Mimicking Testicular Mass: A Case Report
Presenting author: Amjad Saad, MD; Hartford Pathology

Pediatric papillary thyroid carcinoma with STRN::ALK fusion with morphologic features suggestive of cribriform-morular carcinoma: a rare diagnostic challenge
Presenting author: Junaid Shabbir, MBBS; Hartford Pathology

Adenocarcinoma of mammary gland type with features of encapsulated papillary carcinoma of the breast: a rare vulvar tumor mimicking breast carcinoma
Presenting author: Haiming Tang, MD, PhD; Yale Pathology

Adolescent Superficial CD34-positive Fibroblastic Tumor with Unique Morphology and IHC Profile
Presenting author: Kuan-Wen (Scott) Wang, MD, PhD; Hartford Pathology

A case of congenital disseminated malignant rhabdoid tumor, mimicking a vascular lesion
Presenting author: Kuan-Wen (Scott) Wang, MD, PhD; Hartford Pathology

Nodular fasciitis with a novel fusion partner of USP6
Presenting author: Kuan-Wen (Scott) Wang, MD, PhD; Hartford Pathology
